- 17/18 July 2026

## Overall Results

| Metric                    | Result |
|---------------------------|--------|
| Total Test Cases Executed | 15     |
| Passed                    | 11     |
| Failed                    | 4      |

## Major Issues Found

1. Table Reservation Validation Issue
  - User Can complete a booking when the system displays the table is no longer available message.
2. Social Media Links Not Working
  - Facebook, Instagram and WhatsApp buttons navigate to the Select Outlet page instead of opening their social media pages
3. Cookie Policy Link Not Working
  - The Cookie Policy link opens an empty page with an error message.
4. Refund Policy link Not Working
  - The Refund Policy link opens an empty page with an error message.

## Suggestions For Improvement

1. Do not allow users to make the reservation if the chosen table is unavailable.
2. Fix the links for Facebook, Instagram, and WhatsApp such that they link to their respective official social media accounts.
3. Update or replace the Cookie Policy and Refund Policy documents, ensuring the links into valid pages.
4. Perform regression testing after fixing the reported issues.
